

CSS452 Internet of Things

Exercise 2: ESP32 – Multitasking and Deep Sleep

1. Do the Example 2 in Lecture Note 4. Record a video to show

- circuit connection,
- Arduino code,
- demonstration:
 - LED1 is alternatively turned on for 2 seconds and turned off for 2 seconds,
 - LED2 is toggled if we press the switch “SW”.

Submit the video to the Google Classroom.
